Subject: Microsoft Settlement

To Whom It May Concern:

I do not believe that the settlement proposed in the Microsoft antitrust case sufficiently addresses the crimes that have been committed against the American people. I feel that the settlement does nothing to punish Microsoft for what they have already done, and is not strong enough to stop them from doing it in the future. Microsoft has already shown that they will honor only the letter of the law, not the spirit, and therefore the settlement should be much stronger to ensure they have no loopholes to work around. Ideally I believe Microsoft should be heavily fined and broken into several parts, which are then government regulated for the next 3-5 years.

Thank you for reading my letter.

Sincerely,

Afam Agbodike
